# **A Declaration of the Taiwanese Model of the “Charter for Permanent Peace”**

## **Preface**

Inasmuch as All human beings are born free and equal in dignity and rights. They are endowed with reason and conscience—also with justice and peace, and should act towards one another in a spirit of brotherhood. (Human Rights Declaration);

Inasmuch as we humans ultimately have only two paths to the future, “peace and destruction”, in the face of endless nuclear weapons development, once nuclear war breaks out, everything will be ashes. This proves that peace is life, is truth, and is the absolute truth of all things on earth; it is also all justice, morality, politics, economy, thought, faith, philosophy, and science, leading to the ultimate truth. Permanent peace is the eternal, unchanging, human rights-based truth.

Inasmuch as the world’s powerful countries focus only on military competition, while ignoring the lessons of history, fighting must eventually shift to the battlefield of “institutional performance”, and verify itself. Here each system’s merits are judged and the fate of communities is determined. Thus eliminating nuclear weapons cannot be achieved with nuclear weapons, it calls for institutions — and the Charter for Permanent Peace is the most reliable and trustworthy solution.

Inasmuch as Taiwan’s democratic super-constitution is the only peaceful way to evolve Asia in the world, especially in the face of dictatorships and unrestricted nuclear warfare, with no cultural barrier to presenting the universal values of democracy and human rights to 4.6 billion Asians, It can be applied throughout the Orient. All that is needed

is democratic nations with vision. World leaders will strongly support Taiwan's dedication to humanity, support for permanent peace and a super-constitution, inspiring the people of Taiwan to move forward, and attracting the people of Asia to bravely follow. This will launch a new wave of global democracy and lead humanity to realize the great dream of permanent peace. The end result will be a united world, a family of human beings--- this is our sacred historical mission.

Inasmuch as international demands call for maintain the status quo under a General Constitution incorporating the first chapter of the current Constitution—with no changes in the national title, territory, and national flag. The emphasis will be on ending authoritarianism and saving democracy and humanity through permanent peace under the super-constitution. This adopts sustainable development to avoid disaster. Dictatorships will be cursed and the misery of victims will end. This will provided a new pole star for the world's 249 political entities. It adopts a wide-ranging democratic system to supplant the oppressive autocracies, ending all military competition and conflict, and cutting global military budgets in half. Swords will be beaten into plowshares, and human poverty will be eliminated.

Inasmuch as participation by the world's democracies is essential, as long as one person is willing to sign on and recruit others to support the Taiwan Model of the Permanent Peace Charter, this will trigger a “chain reaction” and the “dynamics of wave diffusion”. Hope persists, but we must have hope. As long as there are thousands of supporters, there will soon be millions, tens of millions, and hundreds of millions; quantitative change will lead to qualitative changes, with no need for a single solder, peacefully liberating the world from dictatorship and the threat of global extinction by nuclear weapons.

To this end, the 2/3 of the world's people threatened by authoritarianism in Taiwan and the world have nothing to lose but their chains and cages, violence and lies. All others will gain prosperity, strength and health, becoming self-fulfilled with homes for everyone. All people will be strategic UN partners living and working in peace and happiness.

Now, our “Global Permanent Peace Partnership” stands with the people of Taiwan in front of all humanity here at a turning point in history, declaring that the people of Taiwan are one with the people of the world. Taiwan's laws are the world's laws, and the permanent peace constitution is a step toward a true world civilization. The Model Law published here will be a landmark document in the history of world peace, the Declaration of the Charter for Permanent Peace. Taiwan will serve as a model, offering international constitutional standards (ISO) that all people and all nations shall strive to achieve, implementing international human rights standards so that the Charter for Permanent Peace will be universally and effectively recognized and complied with by all nations.

## **Part One. Two Basic Concepts and Visions**

1. Permanent peace, all laws in one. Integrate international laws into the legal framework of all nations to form a common law for the world.
2. Constitutional benchmarks under Unity. Peacefully evolve all nations into a world-wide entity, a true global nation.

## **Part Two. 28 Basic Propositions**

### **Section One: Building a Free Nation**

1. National Ethical Standards: Permanent peace and universal humanity, benefitting all and harming no one; – These principles run through every provision of the Constitution, as standards for peace (ISO). (§1.1)
2. Voting Frequency Standards: Ensure frequent voting to promote

human dignity, values, freedom, human rights, justice, peace and sovereignty - at least two elections per year. (§1.3)

3. Basis of sovereignty: Calls for the state to withdraw from international peace and mutual protection systems must be approved by 3/4 of all citizens; the admittance of a single nation requires the consent of 3/4 of all citizens, while withdrawal requires consent from 1/2. (§1.5)
4. Election Procedures Standards: Money politics is strictly forbidden. All TV stations shall make at least 60 minutes of free broadcast time per week available to each candidate in an election, and internet platforms and radio stations shall provide at least twice that amount. (§1.6)
5. People's Self-determination Standards: National sovereignty unconditionally belongs to taxpayers. The right of proposal and amendment of the Constitution belongs only to the people, and the State, its organs and civil servants can never interfere. (§1.7)

## **Section Two: Building a Democratic Nation**

6. Term of Office Standards: Ensure the true meaning of election reform. Any elected head shall serve one five-year term, and he/she and his/her close relatives shall not be eligible to run for office for six years afterward. During this period, salaries and benefits may not be adjusted. (§2.4.3)
7. Open Positions Standards: Ensure global governance and place sovereignty in the hands of the people. With the exception of representatives of public opinion, citizens of fully democratic countries are allowed to run in elections for elected heads at all levels. (§2.4.2)
8. Open Parties Standards: Ensure high quality in political parties. A political party from a fully-democratic country that has elected members in its parliament in the past ten years can open a party branch in the State to promote its concepts and candidates in elections. (§2.5.6)
9. Standards for Responsibility in Associations: Abuse of freedom of association to undermine the concepts of law, international law, the

Constitution for permanent peace or international understanding is prohibited. (§2.5.9)

10. Democracy Defense Standards: Anyone who intends to harm, abolish or attack free and democratic order shall be immediately sanctioned by law. For this purpose, everyone has the right to inform on such actions. (§2.8-§1.5)

### **Section Three: Building a Nation with Human Rights**

11. Build a foundation for human rights: Create life values - Create Constitutional Standards - Improve resource allocation - Promoting permanent peace is the most sacred right of the people and the most urgent obligation of the state. (§ 3.1)
12. National Decentralization Standards: Ensure that human rights are not infringed~ the administrative, prosecutorial and trial heads are elected by the people in each year; each year a quarter of the legislators will face election to be reviewed by the voters. (§3.1)
13. Constitutional guarantors: all public officials including the president, ministers, government officials, judges, military officers etc., shall act as constitutional guarantors loyal to all taxpayers. (§3.4)
14. Global standards for human rights: develop a joint community for a common human destiny (§2.8). Human rights shall take precedence over the sovereignty of any regime. Half of the members of the Human Rights and Citizenship Action Committee shall be nominated by international human rights organizations (§3.5)

### **Section Four: Building a Nation under Rule of Law**

15. National Belief Standards: Human rights, constitutionalism, international legalism, and global (democratic multi-common) law; this is a national credo that will create standards for peace. (§4.1)
16. Global Co-opetition Standards: Ensure democracy and rule of law will lead the world for centuries to come ~ Global Co-opetition in Legislative - Administrative - Judicial power is an eternal obligation that the State cannot change or shirk. (§4.1.3)

17. Supremacy of international common law: Guarantee permanent peace and sustainable development for mankind. - International law takes precedence over domestic law with direct impact on the rights and duties of the people. (§1.1 to §4.3)
18. Incorporate all laws in one: Guarantee that freedom - democracy - human rights will not lag behind other countries - the laws of all nations shall constitute part of domestic law, and everyone can choose the most suitable laws. (§1~§4)

### **Section Five: Global Co-opetition in Legislation**

19. Comparison of global regulations: Congress should establish a complete global database for comparing laws and regulations so that the legislators, administrators, judges and all related people can grasp and apply the latest regulations. (§5.2)
20. Parliament Organization Standards: Committee-centered system for the Parliament - In addition to ad hoc committees, 12 Standing Committee shall act as 12 shadow governments, effectively increasing national strength 12-fold. (§5.3)
21. Global Participation in Legislation: Regardless of whether friend or foe, each nation can appoint one person to represent it in the legislature, with no voting rights regarding bills unrelated to its own interests. All other rights and obligations shall be the same as natives. (§5.5)

### **Section Six: Global Scope in Administration**

22. Central Administrative Standards: Semi-presidential Cabinet System ~ The President shall be directly elected by the people; the Prime Minister and all cabinet ministers must be native-born and be responsive to their public opinion base; the Prime Minister is in charge of daily government operations as well as national defense. (§3.6)
23. Local Administrative Standards: Ensure that the public opinion at community levels is communicated directly to the international community. The term of representatives of the people shall be two years. Voters may observe and participate in deliberations in legislative bodies at all levels according to law with no voting rights.

(§2.6 followed by §5.4)

24. International Administrative Standards: The state will make more than 5% of its military personnel and arms available for assignment with global organizations to carry out international security and peace missions that will contribute to the campaign for a global republic. (§3.6)

### **Section Seven: General Justice in Courts and Prosecution**

25. Election of Judicial Officers: Everyone must be a part of justice. Judicial reforms are proposed by candidates in elections. Heads of superior and local courts and procuratorates are directly elected. (§4.1 to §7~§8)

26. Court Ruling Predictions: Construct a national/global system to predict court rulings with an accuracy of at least 2/3 so that people can assess their own legal interests at any time, any place. (§7.8)

### **Section Eight: Justice and Humanity under Unity**

27. Judiciary and Courts Standards: Ensure that all laws in one for long-term use and that justice will always be responsive. Half of the Justices of Constitutional Court shall come from various continents, and all shall enjoy lifetime tenure. (§4.2 and §8.4)

28. Constitutional Review Standards: Global Agreement on the Constitution - Global Review of Unconstitutional Actions- To prevent violations of international law or the Constitution; when no immediate remedy is available, all people have the right to resist. (§8)

Every provision of this charter is designed to promote the great cause of our nation, for the great love of mankind, for the world, for the Great Law, for the unity of all nations. For the oppressed of Taiwan and other nations, the articles offer justice, and each one is a life-saver. For authoritarian dictators, words are their natural enemy and sentences are their nemesis. Any changes of super-constitution including sovereignty by the people will be absolutely—absolutely— superior to the earth-shaking changes brought by the downfall of autocracies. Taiwan is destined to be

a Pole Star for Permanent Peace, providing guidance for Asia, Africa and Latin America. The chapter leaders in the Global Partnership for Permanent Peace, all chapter members and their representatives and supporters shall all be angels of peace acting with God's will to change constitutional law and international law, moving toward a common law for the whole world, and upgrading the UN while promoting the founding of a global republic.

“You” are the master of your national movement toward destiny; you are the commander of the soul of your nation! Every nation's fundamental Great Law needs you as a commander to fulfill itself! Without a doubt, “You are part of the world, because the world is part of you; when you change yourself, you can change the world” (the Dalai Lama).

The People of Taiwan and the People of the World;  
The Laws of Taiwan and the Laws of the World  
The Taiwan Model of the  
**Charter for Permanent Peace**

Introduction to the International Symposium on the  
Charter for Permanent Peace

**Part one:**

**Pursuing Permanent Peace**

Responding to Ongoing  
Change in the World Situation,  
Strategies for Small and  
Medium-sized Countries

# Outline

1. Basic Strategies for Small and Medium-sized Nations Facing Ever-changing Prospects for **the Future** of the World!
2. The Future Is Now: Looking at the Example of **Taiwan**, the Only Way Forward Is All Laws in One and Opening Up the Law:
  - (1) Vertically — "**All Laws in One System**"
  - (2) Horizontally — "**All Laws in One System**"
3. The people have nothing to lose in doing so but their chains and cages, violence and lies, and nothing else.
4. Q&A

## 1. Today

What we want to talk about today has never been said before, but it is something we humans absolutely must do... We must explore **long-term, comprehensive** and **structural** strategies for small and medium-sized countries in the pursuit of **Permanent Peace**.

## 2.The Future Is Now How Should Taiwan Approach the Future?

Regardless of whether you agree or disagree, the era of the global village keeps moving forward. Acting strategically, we gather all the wisdom of human beings and propose that everyone can be free from harm, able to recognize themselves and find self-fulfillment, and ready to attack in order to defend themselves. This strategy is **“All Laws in One System”** :

## Take **Taiwan** as an example

Taiwan is the center of gravity of the joint efforts to “push back against China” for the US, Japan, India and Australia. In the face of the ever-changing global **future**, what is Taiwan’s grand strategy?

## (1) "All Laws in One System," Vertically —

To achieve permanent peace, we need to implement one world under one set of laws, directly recognizing, confirming, and guaranteeing the Constitution:

"International law shall take precedence over domestic law, with direct bearing on the rights and obligations of the people." International law shall be used to restrict state behavior and protect the rights of all people.

**Note:** Article 25 of the German Basic Law states: "The general rules of international law form part of the federal law. The effectiveness of such provisions is superior to the law, directly imposing rights and obligations on residents of the federal territory."

## (2) "All Laws in One System," Horizontally —

To realize permanent peace, we must implement One World under One Set of Laws and clearly define this in the Constitution: "The law of all nations shall constitute part of domestic law, and the people can choose the laws best suited to their needs." This will ensure that freedom and human rights will never not lag behind those of other nations.

National legislative, administrative and judicial organs shall have the power to make decision or judgments in accordance with the law in order to maintain domestic order, to trade time for space, to peacefully evolve evil laws, and to promote self-realization under the "**Global Multilateral Common Law of Democracy**" (in short, **Global Law**).

**Note:** The US' "Anti-United Front War and Reverse Infiltration Laws", Germany' s "Social Network Enforcement Laws", etc., testify that the enemy- the CCP - is already present in-country. If state organs are not ready to take action, the people can sue to defend democracy...

3. In light of this—

Taiwan and the 2/3 of the world's people now suffering under threat by autocracies have nothing to lost but their chains and cages, violence and lies, while others will lost nothing, instead gloriously gaining rich and prosperous countries and models of permanent peace for all humanity.

4. Please listen carefully now and remember these words:

**"All Laws in One System,"**

And slowly we will achieve the future we want.

Q&A

**Part 2: In pursuing permanent peace, we explore possible solutions to the world' s largest dictatorships in China and Russia.**

- 1. Common blind spots** among international powers
2. Unrestricted warfare of the Chinese and Russian autocracies have the world at a loss.
3. Sovereignty in the hands of the people - **Open Positions** for national leaders -is greater than Sovereignty not held by the people – Locked-in Positions, A nation of slaves in the hands of autocrats
4. Save the ignorant. "Rule of law" vs. "Rule of man"
5. Conclusion: "Open Positions", "The World Belongs to Everyone, go for talent and ability", and accelerate "Peaceful Evolution of the CCP, restoration of Chinese civilization"

1

**1. Common blind spots among international powers**

Global Trends 2030 shows: the national strength of the PRC and the US will converge around 2030; China has announced

that 2035 will see ISO standards yielding to Chinese standards as part of global communist rule. The US, China and Russia are only focused on **developing arms**, ignoring blind spots in developing universal values like **freedom and democracy**.

## 2. R&D in unrestricted warfare by Chinese and Russian autocracies has the whole world at a loss

## 3. Taiwan as a model

The democratic "**Super-Constitution**" that provides for both offense and defense has disintegrated the dictatorship "**Unrestricted Warfare**", advocating "**open positions**" 👍 to attract global elites to come to Taiwan to dream and to inspire the Chinese people to bravely follow. "Open Positions" :

## (1) Human Rights

Half of the committee members of the Human Rights Action and Citizenship Exercise Committee shall be appointed by authoritative international human rights organizations.

### Reasons:

1. 193 countries have signed the Universal Declaration of Human Rights, and the human family is the subject of the first article. Thus human rights are a global internal affair.
2. Building a "community for human destiny" with equal rights for all humankind: On Jan. 20, 2017, Xi Jinping called for promoting this concept, and the UN is working hard for its adoption.

## (2) Legislation

Legislation with global participation, whether friend or foe. Each nation sends one person to represent it in the legislature, but with no voting rights on motions unrelated to the home country. All other rights and obligations are the same as local nationalities.

**Reasons:** Whether the government currently has diplomatic ties (now stands at 0), allow global participation in legislation as a symbol of united humanity and diplomacy by the people. Whatever the reality may be, such a change would be very significant.

### **(3) Administration**

**Citizens of fully democratic nations can participate in elections for leaders at all levels according to law. Time in office is limited to one five-year term, after which the official and close relatives are barred from running for office for six years, although benefits are unchanged.**

**Reason:**

Nations and areas must be competitive, so let their leaders be competitive first.

### **(4) The Law**

**Constitutional judges: half hail from other areas of the world, of various nationalities**

**Reason:**

Ensures that laws are unified, enables long-term stability, justice and responsiveness, and confirms Taiwan as a holy place of law...

4. Sovereignty in the hands of the people - **Open positions** for national leaders -is **greater than** Sovereignty not held by the people – Locked-in Positions, A nation of slaves in the hands of autocrats

### **Guardians of Peace in position--**

Anyone who applies for or participates in accordance with the law is **an angel striving to save freedom and democracy and achieve lasting peace**. This will greatly enhance our country's international status and improve its international competitiveness. The value of such efforts is unparalleled: they show that sovereignty belongs to the people and is infinitely superior to dictatorship under communism.

## 5. Save us from ignorance: Rule of law —vs— Rule of man

1. Ruling parties enforce “policies of morons”
2. The general public lacks constitutional expertise, has little enthusiasm for the constitution
3. Most scholars hide their ignorance because knowledge does not come easily (Author: Gunter Grass)
4. Don’ t trust politicians any more; rather, bind them with the constitution to keep them from evil actions. (American Founding Father – Thomas Jefferson) The only thing necessary for the triumph of evil is for good men to do nothing. (Edmund Burke)

Global ranking by political ignorance (2016) - China was second, Taiwan third

**6. Open positions:** The people of Taiwan have nothing to lose but their chains and cages, violence and lies. Others will lose nothing, instead gaining the respect and love of the whole world. They will see the great tradition of **"the world belongs to all, choose knowledge and ability"**. The 1.4 billion people of China will be proud and press **for faster peaceful evolution of the CCP.**

**Part 3: In the pursuit of Permanent Peace, noting that democracy and communism will be competing factors in Taiwan's presidential election next year, the supporters of democracy must have a strategy.**

**Keynote Speaker : iNGO Permanent Peace Partnership**

# Outline

1. The Taiwan presidential election on January 11, 2020, will be a confrontation between the CCP's totalitarianism and Taiwan's democracy.
2. **The Charter for Permanent Peace** offers a Cure-All Method for economic and social problems
3. All state authority is derived from the people.
4. All citizens have **the Right to Resist Unconstitutional Acts**.
5. Permanent Peace needs you to "sign up" and "forward" this message
6. Take this phrase with you today: **Resistance to Unconstitutional Acts** is needed to fulfill the future for us human beings.
7. In summary: " **Permanent Peace , All Laws in One, Open Positions, Anti-Unconstitutional**"
8. Q&A

# 1. THE CONFRONTATION BETWEEN THE CCP' S AUTOCRACY AND TAIWAN' S DEMOCRACY IN 2020

## 2020/1/11 Taiwan Presidential and Parliamentary Elections

- **Scenario:**

- ① **Extinction of democracy is the ultimate aim of the CCP**, if CCP sycophants gain control of the Taiwan Presidency and the majority of the Legislature on January 11, 2019.
- ② After 2022, Taiwan will be annexed by China, and the US will withdraw its armed forces from the first and second island chain and hand over control of the western Pacific. The future of Taiwan is the future of Japan, and the future of the world.

- **Prediction:**

From 2049 on, the CCP will dominate the entire world.

## **2. THE CHARTER FOR PERMANENT PEACE IS THE CURE-ALL METHOD**

Many long years of history have shown that the battles of mankind must finally be fought on the battlefields of "**institutional performance**", where each system's merits will be verified and the future of the community will be decided. Thus the **elimination of nuclear weapons** cannot be achieved by relying on nuclear weapons; it will **depend on the system**. The Charter for Permanent Peace is a trustworthy **Cure-All Method**. It urges China to learn from Taiwan, and realize China's fine tradition of "**The world community is equally shared by all; Select the good and able**", and fulfill China's (Xi Jinping's) commitment to forming a community for human destiny in the UN, and the world will be saved.

### **3. STATE POWER COMES FROM THE PEOPLE**

National basic Act : **With exception of International Law, "All state authority is derived from the people.** It shall be exercised by the people **through free political campaigns,** by elections and referendums, empowering the legislative, executive, and judicial organs of government to take action."

### **4. RIGHT OF RESISTANCE TO UNCONSTITUTIONAL ACTS**

When **Unconstitutional Actions or Violations of the international Law** are found, if **no other remedy is available, all people have the right to resist.**

Ref1: *Basic Law for the Federal Republic of Germany*, Article 20, Constitutional principles – Right of resistance.

## 5. PERMANENT PEACE REQUIRES YOUR SUPPORT — SIGN UP NOW

The Constitution is the soul of the country, the embodiment of morality, the Constitution is with you. All who **sign up to support Permanent Peace** will become an extension of the state spirit. The country will be great, and we human beings will live in peace because of you.

### 5.1 PERMANENT PEACE REQUIRES YOUR SUPPORT TO IN FORWARDING THIS MESSAGE.

People are great because of their dreams, but they are successful because of their actions. We need you to **Sign Up & Forward** to create the effect of "chain reaction" and the power of "wave diffusion ". We cannot simply wait for support, but your support will give us hope. If we gain thousands, even millions, of supporters, the change will definitely come. Without a single soldier, it will be possible to **peacefully transform all dictatorships and terminate development of chemical and nuclear weapons around the world.**

## **6. RESISTANCE TO UNCONSTITUTIONAL ACTS**

Take this phrase with you today:

**“Resistance to Unconstitutional Acts ”  
Any law which does not carry  
penalties is not a law, and a  
constitution that does not  
countenance resistance is not a  
constitution.**

## **7. CONCLUSION Permanent Peace, All Laws in One System, Open Positions, Resistance to Unconstitutional Acts.**

See the declaration on the [Taiwan Model ~  
Charter for Permanent Peace] : **2 basic  
concepts and 28 basic propositions**

**Thank You!**
